

Iteration 1 Release Document

Team 5

Hector Curi, John Politz, Nick Morris, Taylor Bishop, Tyler George

Iteration 1 Set Plan

https://github.com/hcuri/Team5/blob/master/Project_Documents/Iteration1FeatureSetPlan.pdf

Features not included in Iteration 1 Feature Set

- Search functionality
- Uploading presentations
- Contact form
- Photo gallery implementation
- User groups

Features dropped after exhaustive testing

- PDF.js compatibility
- Google Drive api for storage
- GalleryViewer (will use CSS3/jQuery animate)

Features ready for testing

- Login and Registration
- HTML/CSS design and links between pages
- Updating user profile by clicking on username at top right
- Overall look and feel of the site

Production Website

<http://upresent.org>

Notes for the testing group

- Registering does not take you to the user page on submit for some reason
- Click on your username to go to the user profile page
- If you type upresent.org/user.php into the URL bar, it takes you to the user page when it should take you to the main page if you're not logged in
